Executive Remuneration

Basic Policy on Remuneration for Directors and Corporate Officers

- The Board of Directors (excluding members of the Audit & Supervisory Committee; hereinafter the same) shall determine remuneration system for Directors and Corporate Officers based on deliberations regarding its appropriateness by the Remuneration Committee to ensure fairness, objectiveness, and transparency.
- The remuneration level for Directors and Corporate Officers shall be determined to secure excellent human resources who are able to put the Group's corporate vision into practice, taking into consideration the business environment of the Group and remuneration levels at other companies in the same industry or of the same scale.
- The ratio between basic remuneration and performance-linked remuneration (annual bonus and stock remuneration) shall be properly established according to the roles and responsibilities, etc., of each Director and Corporate Officer so as to function as sound incentives toward the sustainable growth of the Group.

Outline of Policy for Deciding the Individual Remuneration for Directors and Corporate Officers

- Remuneration for Directors (excluding members of the Audit & Supervisory Committee; hereinafter the same) and Corporate Officers shall be determined by a resolution of the Board of Directors in accordance with the Basic Policy and the Decision Policy, based on reports from the Remuneration Committee.
- Remuneration for the Directors and Corporate Officers is comprised of basic remuneration and performance-linked remuneration (annual bonus and stock remuneration).
- Basic remuneration is paid as a fixed amount, in cash, each month according to position.
- An annual bonus is linked to the Company's single-year performance (calculated based on financial and non-financial indicators) and is paid in cash once a year.
- Stock remuneration is granted as the Company's shares and cash equivalent to the amount of the Company's shares converted to market value through the trust upon retirement.
- The ratios of remuneration by type are structured so that the higher the position, the greater the weight of performance-linked remuneration, and the ratio for the Company's President when performance target goals have been attained is set so that the ratio of basic remuneration, annual bonus and stock remuneration stands at 2:1:1.

The Company pays only basic remuneration to Outside Directors and the Directors who are Audit & Supervisory Committee Members, given their roles of supervising and auditing management from an independent and objective standpoint. Directors who concurrently serve as Executive Directors of operating companies shall not be paid the annual bonus or the Stock Remuneration from the Company.

Furthermore, the calculation method for performance-linked remuneration, as described below, has been revised from FY2025 based on the Eighth Medium-term Business Plan.

Executive Summary Corporate Governance Compliance Risk Management

Annual bonus

The annual bonus is a remuneration package linked to both financial and ESG performance based on fiscal year results. Financial performance is measured by the total segment profit for a single fiscal year. ESG performance is assessed using the following indicators: employee safety (lost-workday injury rates, with 0% for a fatal accident), climate change (achievement of KPIs related to "Initiatives to Address Climate Change Issues"), and employee engagement (achievement of KPIs related to Enhancement of Job Satisfaction under Promotion of Human Capital Management). Among these, the employee engagement indicator was recently introduced starting in FY2025, recognizing the importance of providing incentives to maximize the capabilities of human resources that drive corporate growth and to enhance job satisfaction. The individual remuneration amount is determined by multiplying the level of achievement of these indicators by a given coefficient for each position.

Directors and Corporate Officers who have been dismissed or have committed any misconduct may lose the right to receive benefits based on a resolution of the Board of Directors. Directors and Corporate Officers who have already received benefits may be asked to return the amount based on a resolution of the Board of Directors if they engage in any misconduct.

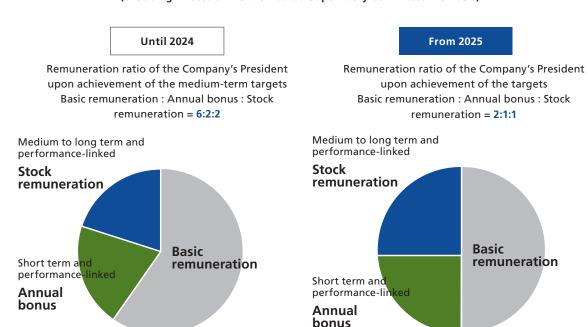

Stock remuneration

Under the stock remuneration plan, a payment level is determined based on performance targets set in the Group's Medium-term Business Plan, etc. From FY2025, to further promote value sharing with shareholders and increase awareness of contributing to the improvement of medium- to long-term corporate value, we have selected the target values for ROE (10% or more), as set forth in the Eighth Medium-term Business Plan, and relative TSR (1 or higher) as performance indicators for the performance-linked portion. The level of payment is based on the degree of achievement of each indicator.

Directors and Corporate Officers who have been dismissed or have committed any misconduct may lose the right to receive benefits based on a resolution of the Board of Directors. Directors and Corporate Officers who have already received benefits may, based on a resolution of the Board of Directors, be required to return the shares and cash already provided if they engage in any misconduct.

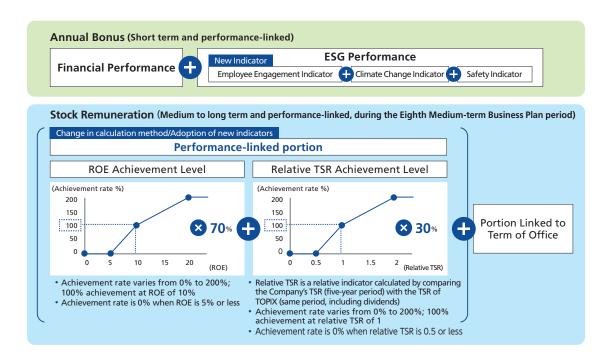

To achieve sustainable corporate growth for the Group, the Remuneration Committee and the Board of Directors continue to improve the remuneration system for Directors to serve as an incentive with a higher level of integrity.
